Things you didn't know about Suresh Lohda:

Attempted to assist a handicapped person shouting for help on UC Berkeley Campus as he was being led in a chair and getting punched in the face, in early 1980s.

I am hoping to be citizen of 2 countries and hope that my n-grandchild will be citizen of n+3 countries so that we can love people of all countries equally.

I love yoga and free-form dancing and dramatic play.

I am psychic and can sometimes see the future.
